Email info@buildingproductdesign.comWebsite www.buildingproductdesign.com**COVID-19 CORONAVIRUS****Further Update To our customers and partners**

As the Coronavirus situation escalates in the UK and across the world, we would like to reassure you about the steps we're taking to help reduce the transmission of COVID-19 and manage the impact of the virus on all our stakeholders.

Following the latest Government advice, from Friday evening 27th March, our factories will temporarily cease production until further notice and all departments within the business will be operating on skeleton staff. Our managed stock control system currently has sufficient levels of stock to service the requirements of our customers and our teams have been equipped with the tools they need to work effectively from home or factories conducting business by phone and email. This is designed to reduce risk for them and their families.

We will continue to monitor what is a fluid and difficult situation and we are reviewing all advice from the World Health Organisation (WHO), national governments and other relevant authorities. Our priority remains to minimize risk to our colleagues, their families, and our customers and we will keep you fully updated with any changes.

If you would like to place an order, request technical support or for any other enquiry, please call us on 0161 905 5700 and leave a message. We will return your call with one hour. Alternatively, you can email us at operations@buildingproductdesign.com.

We would like to take this opportunity to thank you for your continued support.

Robert Colver
Commercial Director
